

Communicate effectively
with the "world..."

Public Instant Messaging Statistics

There are currently over 500 million IM users worldwide and 255,000 new users subscribe to IM services each day

- IDC, September 2000 (ICMM 6.3)

Enterprise-IM Statistics

Over 125 million people are currently using Public IM services in the workplace

- Chela Trend Watch, March 2002

Causerie® is a "Unified" Instant Messaging Solution for Symbian devices. It allows users to communicate instantly and seamlessly across all major IM networks, such as AIM, ICQ, MSN and Yahoo. Causerie® Enterprise supports corporate Instant Messaging protocols like IBM Sametime, Jabber® and Microsoft® Live (beta). It supports roBots (Bots), powerful buddy agents that retrieve real time data such as stocks, weather, news, currency, traffic, eBay auction information, etc. Causerie® lets you communicate "Anywhere, Anytime" with your family, friends and colleagues without requiring a PC or laptop.
